

How to get to Andy Harvey's office, Electrical Engineering , School of Engineering and Physical Sciences Earl Mountbatten Building Heriot Watt University

Heriot Watt is about 10 mins drive from Edinburgh airport (taxi ~£9). Hopefully the directions below will be useful. I am on (0131) 451 3356 or mobile 0777 5687417. The departmental general office is at 0131 451 3328

For the verbal:

- From the airport or M8/M9 take A8 →Edinburgh
- After ~1½ miles take left lane and turn right on city bypass (A720)
- Keep left on A720 and follow signposts for the A71 to Kilmarnoch. (The Eagle eyed may spot a subtle signpost for Heriot Watt.) This takes you to a roundabout where you turn right on the A71, back over the bypass.
- After about ½ mile take the first left and then after ¼ mile at a big roundabout turn right into the campus
- In term time visitors should park at the big car park on the right.
- Out of term time the traffic police are more relaxed and you can park right outside the dept.: -turn right at the mini roundabout, follow the road round a left-hand bend and CEE is the first four storey brown brick four-slice sandwich on the left. Park in the car park there ("second gait").
- Go in the red canopied entrance, up two flights of stairs (with coffee & sweets machines at the bottom) and on the second floor go along one corridor and half way along the next to find my office: room 2.5 (logically positioned between rooms 2.7 and 2.6!).

For the technically minded:
