CALCULATORS IN EXAMINATIONS - UNIVERSITY POLICY

In examinations, where calculators are permitted by the Head of School (or nominee) and where there is a restriction on the model to be used, one of the following University approved models should be used:

- Casio fx-85WA
- Casio fx-85MS
- Casio fx-85ES
- Casio fx-85GT Plus
- Casio fx-83MS
- Casio fx-83ES
- Casio fx-83GT Plus

In examinations, where calculators are permitted and where a Head of School (or nominee) has agreed that there should be no restriction on the model of calculators used, any restrictions on text storage and retrieval facilities must be imposed by the Head of School (or nominee) setting the examination.

Students should note that if a Head of School (or nominee) has informed the Academic Registry that there is a restriction on the model to be used in an examination, invigilators have been instructed to confiscate any calculators which are not the University approved models.

Academic Registry do not supply calculators for student use in examinations.
